SUMMARY

Data Science student skilled in Python, and data analysis with hands-on project experience. Interested in AI, analytics, and solving real-world problems using technology.

EDUCATION

B.Tech in Computer Science and Engineering (Data Science) 2023 – 2027
St. Vincent Pallotti College of Engineering and Technology,
Nagpur CGPA: 8.15

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Libraries / Frameworks:** NumPy, Pandas, Matplotlib, NLTK
- **Developer Tools:** Jupyter Notebook, VS Code, Power BI, AWS(Basic)
- **Core Skills:** Data Analysis, Data Cleaning, Data Visualization

PROJECTS

Pharmacy Management System

Technologies: Python, SQL

- Developed a system to manage medicine inventory and sales
- records. Designed a database for product and customer details.

E-commerce Sales Data Analysis

Technologies: Python, Pandas, Excel

- Analyzed sales data to identify customer behavior and trends.
- Cleaned and organized raw data for better analysis.

Water Quality Data Analysis

Technologies: Python, Pandas

- Collected and analyzed water quality datasets.
- Identified patterns affecting water quality and health factors.

BLE-Based Wearable Indoor Navigation System

- Developed an ESP32 and BLE-based indoor navigation wearable
- system. Implemented RSSI-based location detection without GPS.

EXTRA CO-CURRICULAR ACTIVITIES

- Hobbies include dance, badminton, chess, and art & craft.
- Love exploring new technologies and creative activities.
- Interested in continuous learning and self-development.
